

III. JJ. Sets: Set Relationships D.I.C.E.S. (only)

SET RELATIONSHIPS: D.I.C.E.S.

Dr. Stan Hartzler Archer City High School

Disjoint

Probability:
“mutually
exclusive events”

$$A \cap B = \emptyset$$

Intersecting

Probability:
“independent
events (perhaps)”

$$A \cap B \neq \emptyset$$

Complementary

Probability:
“complementary
events”

$$A \cup B = U$$
$$A \cap B = \emptyset$$

Equal

Subset

$$B \subseteq A$$
